Odkrij košček raja A crowdless paradise

Kaj pomeni slogan Odkrij košček raja? To je poziv, da najdeš čas, da zbereš pogum. Za izziv, za nekaj novega, da se zopet počutiš svobodnega. To je poziv, da odkriješ Tržiško! Košček raja je za vsakega posameznika nekaj drugega. Za nekoga je to čudovit razgled, za drugega vzpon z gorskim kolesom ali pa prijazen nasmeh domačina, spet za nekoga tretjega uživanje na kulturnem dogodku, ali pa okušanje lokalnih specialitet. V koščku raja se počutiš dobro, brez meja v naravi, kulturi in v glavi. Poznaš občutek, ko imaš vsega dovolj in se želiš umakniti na kraj, kjer je vse lepše? Le tam si sproščen, ni hitenja, ni stresa, ni budilke

in ni telefona, ki bi ti krojil vsako minuto tvojega življenja. Ta kraj je zate in za mnoge Tržiško.

Odkrij košček raja na severu naše domovine, kjer vrhovi najdaljše slovenske gore Košute podajajo roko sosedi Avstriji, kjer se v zgodovinskem mestnem jedru Tržiča Tržiška Bistrica in Mošenik združita v eno, kjer tudi najmanjši podeželski zaselek skriva svoj unikaten »zaklad,« ki ga lahko odkriješ tudi ti. Sam, v paru, poslovno, z družino ali prijatelji, tukaj si in je dobrodošel vsak! Čas, ki ga boš namenil odkrivanju tržiškega koščka raja, bo zagotovo ostal nepozaben.

What does the slogan "Discover a crowdless paradise" mean? Consider it an invitation to gather your resolve and take on a challenge, to try something new, to experience freedom anew—it is a call to discover Tržič! Paradise means something different for each individual. For some it is a spectacular view, for others an ascent by mountain bike, or the friendly smile of a local, while for still others it could be enjoying a cultural event, or sampling local specialities. Do you know that feeling when you're fed up with everything and you just want to get away from it all? Somewhere you can relax, there is no rush, no stress, no alarm clock and no phone to dictate

every minute of your life. For you and for many others this place is Tržič.

Discover a crowdless paradise in the northern part of Slovenia, where the summits along Slovenia's longest mountain ridge Košuta meet neighbouring Austria, where the Tržič Bistrica and Mošenik rivers merge into one in the historic town centre of Tržič, where even the smallest rural hamlet hides a unique "treasure" that you can also discover. On your own, as a couple, on business, with family or friends, here you are welcome! The time you spend discovering the crowdless paradise of Tržič promises to be unforgettable.

Iz tržiških piskrov From Tržič pots

Tržičani so radi jedli meso – predvsem perutnino, a tudi divjačino, svinjino in govedino; ljubili so tonko – omako, ki ostane pri pečenju mesa. Pogosto so bile na mizi močnate jedi, med njimi žganci, štruklji, močnik in krapi, pa tudi kaša.

Najbolj znana tržiška jed so zagotovo tržiške bržole, enolončnica iz ovčjega ali koštrunovega mesa. O njihovem nastanku je poznana zgodba, ki govori o veseli družini na planini Kofce, ki je, ko jim je zmanjkalo hrane, uplenila ovco in jo skuhala skupaj z začimbami in zelišči, rastočimi na planini.

V kulinarike je pustilo sled tudi pestro zgodovinsko dogajanje, tako so Tržičani z avstrijskimi vojaki spoznali jed iz testenin, slanine, krompirja in čebule, imenovano grenadirmarš.

The people of Tržič have always liked to eat meat and they loved "tonka" – the gravy from roasting the meat. They often prepared floury dishes like "žganci" (buckwheat mush) and "štruklji" (dumplings) as well as "močnik" and "kaša" (types of porridge).

The best known Tržič dish is "Tržič bržola". There is an interesting story on how the dish originated that talks about a merry crowd having a good time up on Kofce mountain pasture and ran out of food, so they stole a sheep and cooked it up with some seasoning and herbs growing in pasture.

The traditional Tržič cuisine has also been influenced by the colourful historical events. Due to closeness of the border, Tržič citizens together with Austrian soldiers were introduced to a dish made of pasta, bacon, potatoes and onions, called "grenadirmarš".

Planšarije Mountain dairy farms

V času pašne sezone, ko morajo planšarji svoje dneve preživeti v bližini živine, so v ta namen že v starih časih postavljali manjše visokogorske kočice imenovane "planšarije". Kočica je planšarjem nudila streho nad glavo in varno zatočišče. V današnjih časih pa ne služijo le originalnemu namenu, saj je večina planšarij odprta za vse goste.

V planšarijah vam nudijo tako domače izdelke kot tudi razne jedi, pripravljene le iz sestavin ki jih sami pridelajo in naberejo, odprte pa so le v času pašne sezone med 15. junijem in 15. septembrom.

Pravijo da se na planini čas ustavi zato kar nekaj planšarij poleg domačih jedi nudi tudi možnost prenočišča, pohodniki se tu lahko okrepcate in doživite pristno izkušnjo obdani z prelepimi razgledi, čistim zrakom in melodijami kravjih zvoncev.

During the grazing season, when "planšarji" (shepherds) have to spend their days near their livestock, small huts called "planšarije" were built for this purpose. The hut provided a roof over the head and a safe haven for the shepherds. Nowadays, they serve more than their original purpose, as most of them are open to all guests.

In this beautiful small huts they offer homemade products as well as a variety of dishes made only from ingredients they produce and gather themselves. Due to colder mountain weather planšarije are only open during the grazing season between 15 June and 15 September.

It is said that time stands still on the mountain, which is why a number of the shepherd's huts offer not only homemade dishes but also accommodation, refreshments and an authentic experience surrounded by beautiful views, clean air and the melodies of cowbells.

Bogastvo Tržiškega muzeja

Na sodobni in interaktivni razstavi so predstavljene najpomembnejše tržiške obrti. V pritličju je stalna razstava Slovenskega smučarskega muzeja. Stalna razstava Bogastvo obrti prikazuje obrti in industrijo, ki so skozi čas vplivale na razvoj mesta in življenja ljudi v njem. Štiri razstavne prostore zavzema prikaz čevljarstva, v preostalih je predstavljena še dediščina tržiškega usnjarstva, nogavičarstva, izdelave modrotiska in drugega tekstila. Simbolično so nakazane tudi kovaška, kolarska, krojaška in mesarska obrt. V pritličju je tudi stalna razstava Slovenskega smučarskega muzeja. Pollakova kajža, znana tudi pod imenom Zgornja kajža, je bila zgrajena po velikem tržiškem požaru leta 1811. Njen prvi lastnik je bil usnjar Karel Pollak, za njim je njegov sin Gašper Pollak (1800–1880) v Kajži ustanovil modrotiskarsko manufakuro. Bil je prvi od ljudstva izvoljen tržiški župan (1851–1860).

Po sledih industrijske dediščine

Čevljarstvo je Tržič v preteklem stoletju močno zaznamovalo in vplivalo na življenje prebivalcev. Po poteh industrije vas vodijo kovinski odtisi čevljev na tleh. Le-ti vas usmerjajo po celotnem zgodovinskem jedru in opozarjajo na točke, kjer je bilo čevljarstvo skozi zgodovino najbolj prisotno. Lokacije so povezane v dobro uro dolgi krožni poti po Tržiču, na kateri si lahko ogledate nekatere kulturne in turistične znamenitosti kraja. V sedemdesetih letih 19. stoletja so se v njem razvile prve obutvene tovarne, leta 1903 je bila ustanovljena Tovarna obutve Peko. Danes obutev v mestu in okoliških krajih izdelujejo v manjših obratih, ki so jih razvili domači podjetniki. Kovinski odtisi podplatov označujejo izbrane čevljarke obrate v Tržiču (ob pogledu na zemljevid boste opazili rumeno obarvane številke). Kraj je od druge polovice 19. stoletja dalje najbolj zaznamovala prav izdelava obutve, ki je iz rokodelstva prešla v industrijo.

Traces of Industry in Tržič

In the previous century, shoemaking had a strong influence on the life of Tržič residents. Metal shoeprints on the ground will lead you along the paths of industry. They will direct you through the whole of the historic centre and draw your attention to points where shoemaking was most prevalent through history. The locations are connected together in a circular walk around Tržič that takes a bit over an hour to complete. Along the way you can view some of the cultural and tourist attractions of the town. Tržič is famous in Slovenia and beyond for its exceptional shoemaking heritage. The earliest shoe factories began to develop there in the 1870s, and in 1903 the Peko Shoe Factory was founded. Today shoes are manufactured in the city and nearby towns in smaller plants developed by local entrepreneurs. The metal imprints of the soles (see photo) marked selected footwear plants in Tržič (see the yellow numbers on the map). From the second half of the 19th century on, the development of the town was strongly shaped by the manufacturing of footwear, which transformed handicrafts into an industry.

Livarna z muzejem in galerijo Mebron

Ulivanje različnih kovin v modele je predstavljalo enega izmed temeljnih kamnov v razvoju od preprostih družb do razvitih civilizacij. V livarni si lahko ogledate nekaj utrinkov iz razvoja ene najbolj kompleksnih obrti na svetu, ki obstaja že več tisoč let. Ta zanimiva navada se je v Tržiču ohranila še do začetka 20. stoletja in se je uporabljala kot način napovedovanja prihodnost z ulivanjem staljenega svinca v vodo. Zadnjemu dnevu v letu so Slovenci pravili staro leto, večeru tistega dne pa drugi sveti večer, poznejše ime je Silvestrovo. Prav ta zadnji večer so vedeževali s pomočjo svinca in iz oblik, ki jih je dobil v vodi, prerokovali so prisotnim o zdravju, sreči, ljubezni in prijateljstvu. Ta obred je bil po bučnem praznovanju opravljen popolnoma, tako da so po družinah ali skupinah vlivali staljeni svinec v ponvice, napolnjene z vodo. Če je strjeni svinec pokazal obliko mačka, je to pomenilo hinavščino, pajek je prinašal nesrečo, konj je za podeželsko dekle pomenil, da bo dobilo za ženina kmečkega fanta, mestni gospodični pa oficirja na konju itd.

Mebron Tržič

The casting of various metals into moulds represented one of the cornerstones for the development of simple societies into advanced civilizations. At our museum you can view some highlights from the development of one of the most complex crafts in the world, which has been in existence for several thousand years. This interesting custom was preserved in Tržič up to the beginning of the 20th century as a way of predicting the future through the pouring of molten lead into water. Slovenes used to call the last day of the year the old year, and the evening of that same day the second holy evening, later St. Sylvester's. The last evening of the old year was when they foretold the future with the help of lead, making prophecies about health, fortune, love, and friendship based on the forms it took in water. This rite was performed at midnight after a noisy celebration: families or groups poured molten lead into a pan filled with water. If the solidified lead displayed the shape of a cat, that meant hypocrisy, a spider would bring misfortune, a horse revealed to a country girl meant that she would marry a farm boy, if to a town girl, a military officer on horseback etc.

Kamnek

(čas poti: Za pot porabimo približno 1 uro in je označena kot lahka, nezahtevna)
Kamnek je razgleden vrh nad Tržičem. Osvojimo ga lahko kar iz starega mestnega središča. Na vrhu se odpira razgled na nekaj bolj znanih vrhov, kot so Storžič, Veliki vrh in Begunjščica. Lep razgled ponuja tudi na mesto Tržič. Skozi staro mestno jedro pot nadaljujete mimo cerkve sv. Andreja in picerije. Na vaši desni se bo odcepila pot skozi velika, stara dvoriščna vrata, kjer po bregu nadaljujete pot mimo parkirišča za goste picerije, nato se usmerite levo in začnete vzpenjati po prijetni gozdni stezi po pobočju Kamneka. Sledite dobro vidni in shojeni stezi, pot je nekajkrat označena z markacijami in smernimi puščicami. Po nekaj minutah hoje boste prispeli do vrhčkov z nekaj vrtnimi lopami in malimi vikend hišicami, kjer vas bo velika markacija pritrjena na tabli na vrtni ograji, usmerila po sredini, po široki poti navkreber. Zadnjih nekaj 10 metrov pod vrhom zelo strmo. Kmalu boste dosegli vrh, kjer je postavljena klopca in vpisna knjiga, na visokem drogu pa vihra slovenska zastava. Razgled je na vse strani zelo lep, vidimo Dobrčo, Stol, Begunjščico, celotno Košuto, Dovžanovo sotesko, Lomsko dolino, Storžič, Kriška goro in še marsikaj.

Kamnek

(time required: about an hour is required for the route, which is categorized as easy and undemanding.)
Kamnek is a scenic peak above Tržič. The top can be reached starting right from the old town centre and offers views of some of the better known mountains in the area, such as Storžič, Veliki Vrh and Begunjščica. It also offers a beautiful view of the town of Tržič. Go straight along the street to the Church of St. Andrew, passing by it on the left side, and continue along the same street a bit further. Soon you will see the sign "Picerija" (Pizzeria), and a trail branching off to the right through a large, old courtyard gate, which you follow past the parking area for pizzeria guests until a few metres on you see a parking lot below the castle. At this lookout point, turn left and start climbing along a pleasant forest path along the slope of Kamnek. A few meters later, another path joins from the bottom right. Then follow the well-visible and well-trodden path, which is marked several times with markings and directional arrows. After a few minutes of walking you will reach gardens with a few garden sheds and small cottages, where a large marking will be attached to a sign on the garden fence, directing you in the middle, along a wide path uphill. The view is very beautiful on all sides: you can see Dobrča, Stol, Begunjščica, the whole of Košuta, the Dovžan Gorge, the Lom Valley, Storžič, Kriška Gora and more.

POT TREH ZVONOV – najbolj zvoneča pot

Je tu doma čarovnica? Se kdo skriva v jami? Ima bistra voda kraških izvirov še čarobno moč? Udin boršt je razdrapan kraški svet, ki buri domišljijo a pot treh zvonov, ki se vije po severnem delu gozda je prijazna in nezahtevna za pohodnike vseh starosti. ORLOVA POT – pot mogočnega planinskega orla

Orlova pot na prijeten in ne pretežak način razloži številne značilnosti in zanimivosti pokrajine. Pot je krožna, lahka ter primerna za družine, ki jih ne privlači toliko adrenalin kot čisti naravoslovni "firbec" in dobra domača hrana. Po poti nas usmerjajo markacije in table, ki razlagajo pojave v naravi kot so melišča, potok Košutnik in njegov izvir, različne drevesne vrste, planinske rože ... najdemo celo palčkovo deželo. Na lovski opazovalnici lahko oprezate za gamsi, ki »plezajo« po melišču ali pa v strmem pobočju poiščete gnezdo planinskega orla.

THE EAGLE TRAIL – the path of majestic golden eagle

The Eagle Trail explains the many features and attractions of the landscape in a pleasant and not too difficult way. The route is circular, easy and suitable for families who are not so much attracted by the adrenaline rush as by pure natural history and good local food. Along the way, we are guided by signs and boards explaining natural phenomena such as scree, the Košutnik stream and its spring, various tree species, mountain flowers... there is even a dwarf's land. At the hunting observation point, you can watch for chamois "climbing" on the scree or find a golden eagle's nest in a steep hillside.

Če čas ne dopušča vseh vrhov, pa si med njimi lahko izberete le enega ali dva. Pot do Kriške gore spada med manj zahtevne poti, zlahka jo prehodna tudi za družine z otroki z izhodiščno točko iz vasi Gozd (ura hoje), bolj izkušeni planinci pa lahko svojo pot začnete v Tržiču (dve uri in pol).
