Tržičani so radi jedli meso – predvsem perutnino, a tudi divjačino, svinjino in govedino; ljubili so tonko – omako, ki ostane pri pečenju mesa. Pogosto so bile na mizi močnate jedi, med njimi žganci, štruklji, močnik in krapi, pa tudi kaša.

Najbolj znana tržiška jed so zagotovo tržiške bržole, enolončnica iz ovčjega ali koštrunovega mesa. O njihovem nastanku je poznana zgoda, ki govori o veseli druščini na planini Kofce, ki je, ko jim je zmanjkalo hrane, uplenila ovco in jo skuhala skupaj z začimbami in zelišči, rastочimi na planini.

Pri tržiških gostincih lahko poskusite nekaj izbranih tradicionalnih jedi, ki jih na sodoben način pripravljajo posebej za vas. Na planšarijah pa v poletnih mesecih ponujajo predvsem mlečne jedi. Kislo mleko v kombinaciji z različnimi žganci, masovnik in štruklji so jedi, ki bodo poskrbele za razvajanje vaših brbončic.

The people of Tržič have always liked to eat meat – especially poultry, but also game, pork and beef – and they loved the drippings left over from roasting meat, which they called tonka. Flourbased dishes like žganci (buckwheat porridge), štruklji (dumplings), močnik and kaša (types of porridge) and ravioli were also common menu items on Tržič tables.

The most famous Tržič dish is certainly Tržič bržola, a stew made from mutton. There's a story about how the dish originated, when a merry band having a good time up on Kofce mountain pasture ran out of food, so they stole a sheep and cooked it up with some seasonings and herbs growing on the pasture.

In Tržič restaurants and inns you can try traditional dishes prepared in a contemporary way especially for you. In the summer months the mountain dairies serve mainly milk-based dishes. Sour milk in combination with various types of porridge, masovnik, and dumplings are dishes that are sure to delight your taste buds.

Gostilna Pri Bajdu

Prvi zapisi o obstoju Gostilne Pri Bajdu, ki jo najdete v vasi Senično ob vznožju Kriške gore, segajo v davno leto 1871. Vodi jo že četrta generacija družine Ribnikar, ki ohranja originalnost gostilne in se trudi, da vam še danes omogoča okus preteklosti.

Že dolga leta so poznani po odličnih telečjih in svinjskih kračah, ki jih pripravljajo po hišnem receptu in jedeh iz divjačine, predvsem po divjem prašiču in srni. V njihovi ponudbi najdete še mnogo avtohtonih slovenskih jedi, jedi iz ajdove kaše, gob ...

Ajdovi krapi so jed, ki jo načeloma najdemo na vsaki domačiji v Sloveniji, zanje značilno pa je, da nikjer niso enaki. Na čebuli z začimbami nežno dušeno srnino stegno da preplet okusov in vonjav, ki so osnova za omako s korenjem in suhimi slivami.

The earliest records of the existence of this inn, located in the village of Senično at the foot of Kriška Gora, date from 1871. Today it is run by the fourth generation of the Ribnikar family, who have preserved the original character of the inn and strive to provide you with a taste of the past even today.

For many years, they have been known for their excellent veal and pork shanks, prepared according to a house recipe, and dishes made from game, especially wild boar and venison. The menu also includes many authentic Slovenian dishes, dishes made from buckwheat porridge, mushrooms, and other local specialities. Buckwheat ravioli is a dish that can be found on every homestead in Slovenia, but it is never the same anywhere. Leg of venison gently stewed with onions and seasonings results in a blend of flavours and aromas that are the basis for a gravy with carrots and prunes.

Ekološka kmetija Šlibar

Na družinski ekološki kmetiji Šlibar so pred današnjimi gospodarji kmetovali že mnogi rodovi, po ekoloških pravilih pa so začeli kmetovati v letu 2001. Ukvajajo se z več dejavnostmi: pridelujejo žita, sadje, zelenjavo, redijo živali, osnovne ekološke pridelke pa tudi predelajo. Tem so pred nekaj leti dodali še dve: najprej varjenje bio piva in kmalu zatem še glamping v lesenih hiškah.

Da bi nekoč varil svoje pivo, je bila že dolga leta želja gospodarja Gregorja. Danes imajo v ponudbi tri vrste bio piva: Amber lager, Temni lager in Bock pivo. Bio pivo Šlibar je nepasterizirano in nefiltrirano in je prvo in še vedno edino bio pivo zvarjeno v Sloveniji. Vse sestavine v njem so ekološkega porekla, voda pa iz bližnjega Žegnaniga studenca.

Poskusite ga lahko v Mestni kavarni, na Trgu svobode 24 v Tržiču ali pa ga kot spominek kupite v TPIC Tržič in Info točki Dovžanova soteska.

•
Many generations of farmers worked on the Šlibar family farm before the current owners; farming in accordance with organic guidelines was initiated in 2001. The farm supports a number of activities:

cultivation of grains, fruit and vegetables as well as livestock husbandry and processing of organic produce. A few years ago, two more were added: brewing of organic beer and soon after, glamping in wooden cabins.

For many years, it was the proprietor Gregor's wish to brew his own beer. Today, three types of organic beer: are offered: amber lager, dark lager and Bock beer. Šlibar organic beer is unpasteurized and unfiltered and is the first and currently only organic beer brewed in Slovenia. All of its ingredients are of organic origin, and the water comes from the nearby Žegnani spring. You can sample it at the Mestna Kavarna coffeehouse, at Trg svobode 24 in Tržič, or buy it as a souvenir at TPIC Tržič and the Dovžan Gorge Info point.

Na vrhu ozke alpske doline kraljuje Ljubelj, najstarejši cestni prelaz v Evropi.

Cesta na prelaz je danes zaprta za motorna vozila, razen septembra, ko tu organizirajo dirko starodobnikov. Dobra 2 kilometra dolga pot na prelaz Ljubelj, z najstrmejšim naklonom 33 %, je pozimi priljubljeno sankališče za pogumne in adrenalina željne. Na vrhu pa vas v koči pričakujejo z jedmi na žlico in domačimi sladicami.

Posebej vam priporočajo joto, ki jo pripravljajo na tradicionalni način s kislim zeljem, fižolom, krompirjem in skrbno izbranimi začimbami. Po slastnem kosilu pa se vedno prileže tudi okusna sladica. Priporočajo vam hišno specialiteto »Ukanove štruklje«, to so sirovi štruklji z brusničnim ali orehovim prelivom.

At the top of a narrow Alpine valley, Ljubelj, the oldest road pass in Europe, reigns supreme.

The road to the pass is now closed to motor vehicles, except in September, when an oldtimer race is organized here. The two-kilometre-long road to Ljubelj Pass, with a grade of 33% at its steepest point, is a popular sledding run in winter for the brave and adrenaline-seeking.

At the top, you will be welcomed in the hut with one-pot dishes and homemade desserts.

Especially recommended is the Istrian stew (jota), which is prepared in the traditional way with sauerkraut, beans, potatoes and carefully selected seasonings. After a savoury lunch, a delicious dessert is always a good idea. The house speciality is "Ukan dumplings", which are cheese dumplings with cranberry or walnut topping.

Koča na Dobrči

Nad gričevnatim svetom Ljubljanske kotline, med Tržičem in Begunjami na Gorenjskem, se dviga razgledna, 1634m visoka Dobrča z malo nižje stojecjo kočo. Za vzpon imamo na izbiro več markiranih poti, ki večinoma vodijo iz podgorskih vasi Brezje pri Tržiču, Hudi graben in Srednja vas. Razgledi v dolino, čez polno obloženo mizo, so dih jemajoči.

Iz koče res ne boste odšli lačni, saj boste v pestri ponudbi prav gotovo našli kaj za vaš okus. Stalno nudimo vsaj 3 različne enolončnice, ajdove žgance, kislo zelje, pečenice, krvavice, pečena svinjska rebra, sirove štruklje in jabolčni zavitek, v pašni sezoni pa tudi kislo mleko.

Above the hilly Ljubljana Basin, between Tržič and Begunje na Gorenjskem, rises the scenic mountain of Dobrča, 1634 metres high, with a mountain hut located somewhat lower. There is a choice of several marked trails to the summit, which lead for the most part from the foothill villages of Brezje pri Tržiču, Hudi Graben and Srednja Vas. The views of the valley below, which you can enjoy from a food-laden table, are breathtaking.

There's truly no need to leave the hut hungry since you will surely find something to your taste from among our varied menu. There are always at least three different one-pot meals on offer, along with buckwheat porridge, sauerkraut, Bratwurst, blood sausage, roast pork ribs, cheese dumplings and apple strudel, and during the grazing season also sour milk.

Zavetišče Gozd

Zavetišče Gozd se nahaja na robu vasice Gozd, ob cesti, ki pripelje iz ene smeri Križev pri Tržiču in druge iz Golnika, leži na ravnini južnega pobočja Kriške gore, na katero je lep razgled z zunanje terase gostišča. V gostišču je 35 sedežev, v toplejših dnevih na zunanjji terasi pa tudi do 100 sedežev. Zunaj je postavljen oder za razne prireditve, plesišče, otroška igrala s plezalno steno. Iz kuhinje pa vedno diši po pravi domači slovenski hrani. Najbolj nas poznajo po jedeh na žlico, kot so vampi, ričet, jota, bograč, golaž, obara in seveda, žganci, pražen krompir, zelje, krvavice, pečenica, kranjska klobasa. Brez pečenih svinjskih reber pa v naši hiši ne gre. Za sladico pa vam postrežemo z domačimi štruklji, grmado in domaćim jabolčnim zavitkom.

The refuge is located at the western edge of the village of Gozd along the road from Križe from one direction and from Golnik from the other. It is sited on a terrace on the southern slope of Kriška Gora and offers a beautiful view of the mountain. There is an outdoor stage for various events, a dance floor, children's playground equipment and a climbing wall.

The refuge is surrounded by forest on three sides; when you step onto the nearby meadow towards Kriška Gora, a view of the nearby mountains opens up. The lower station of the freight cable car to Kriška Gora is located at the refuge. The kitchen always smells of authentic homemade Slovenian food. It is best known for one-pot dishes such as tripe, hearty barley soup, jota, bograč, goulash, stew and of course, buckwheat porridge, pan-fried potatoes, cabbage, blood sausage, Bratwurst, and Carniolan sausage. Roasted pork ribs are always on the menu. For dessert, you can order homemade dumplings, a sweet and rich delight called grmada and homemade apple strudel.
