## The path is in the shape of the Rosary.

The directions from the Basilica of Mary Our Help at Brezje to the church of St. Neža at Brezje pri Tržiču and from the church of St. Janez Krstnik at Kovor to the church of St. Jakob at Leše are represented by a cross. On it is a rosary and because of this the content of this route invites you to think about the Secrets of the Holy Rosary.

The content is consistent with the configuration of the terrain, the natural distribution of the areas of forests, meadows and fields, and most notably includes the content of the special natural treasure – the Peračica creek and its tributaries, which also constitutes the most beautiful natural orientation in the area.

The circular route takes us along the old pilgrim routes in the largely uninhabited territory of two municipalities (Tržič and Radovljica), three parishes (Brezje, Kovor and Leše) and at the same time also four local communities (Mošnje, Kovor, Brezje pri Tržiču and Leše). On these routes people made pilgrimages to Mary Our Help at Brezje.
